Updated: September 1, 2026

EDUCATION

Mar. 2025 – Feb. 2029

Seoul National University, Seoul, S.Korea

B.S. in Computer Science & Engineering

College of Liberal Studies

RESEARCH INTERESTS

Interested broadly in machine learning and its real-world applications, particularly empirical evaluation and iterative improvement of AI systems.

PROJECTS

Sep. 2025 – present

Simply5x5 — iOS Workout Tracker

SwiftUI · Firebase AI Logic (Gemini) · HealthKit · Swift Charts

- Released an ad-free 5x5 workout tracker on the App Store with auto progression/deload, AI feedback, e1RM strength ranking, and a plate calculator.
- Reached 1.42K downloads, 11.9K app sessions, and 67 average daily active users over the last 30 days as of Aug. 2026; selected for the 2026-1 Computer Programming Extra Project showcase.

2022

Optimal Transit Route Distribution via Machine Learning

R · Python (matplotlib) · Logistic Regression

- Explored correlations between municipal indicators (population, income, bus stops) and tram/subway route placement in Daejeon; built a logistic regression model to predict optimal station distribution.
- Led all technical work: collected and cleaned public CSV data, trained and evaluated logistic regression models in R, and used Python with matplotlib on Google Colab for correlation analysis and 3D visualization.

TEACHING & MENTORING

Sep. 2026 – present

Undergraduate Course Tutor (Tutor B)

Computing Basics: Introduction to Computing, Seoul National University

- Provide one-on-one support during lectures and programming labs, helping students diagnose errors, debug code, and complete exercises through Elice.
- Answer student questions through the course chat, provide feedback on final-project proposals and presentations, and proctor coding assessments.

Mar. – Jun. 2026

Undergraduate Mentor, Freshman Seminar

Seoul National University

Supported seminar activities and guided first-year students through discussions and collaborative assignments on safe research practices.

RELEVANT COURSEWORK

Statistics (A⁺), Statistics Lab. (A⁺), Discrete Mathematics, Computing Core: Data-Centered AI (A⁺), Computer Programming (A⁺), Logic Design (A⁺)

HONORS & AWARDS

Shilla Cultural Scholarship Foundation — Merit-based full tuition for 3 years (Mar. 2026).
SNU Merit-Based Scholarship — KRW 1,199,200, Seoul National University (Feb. 2026).
SNU Development Fund Scholarship — KRW 2,442,000, Seoul National University (Aug. 2025).
Gwanak-gu Mayor’s Commendation — Awarded for service as an outstanding mentor in SAM (SNU Active Mentoring) (Aug. 2025).

SKILLS

Programming	Python, C, C++, Java, Swift, R
Tools	Git, Linux, PyTorch
Languages	Korean (Native), English (Fluent — TEPS 444)
