

Hwan Ji

Seoul National University · Seoul, Republic of Korea

saturdaynightlive@snu.ac.kr · github.com/saturdaynightlive · saturdaynightlive.github.io

EDUCATION

Mar. 2025 – Feb. 2029 **Seoul National University**, Seoul, S.Korea
B.S. in Computer Science & Engineering
Minor in Statistics (from Sep. 2026)
College of Liberal Studies

RESEARCH INTERESTS

Broadly interested in artificial intelligence and machine learning research.

PROJECTS

-
- | | |
|------|--|
| 2024 | Evening Self-Study Request System
Node.js · Swift (iPad) · MySQL |
| | <ul style="list-style-type: none">• Collaborated with a peer (responsible for app UI design) to digitize the paper-based evening self-study movement request process at a high school.• Developed the backend and chose Swift/iPad as the client platform because the school provided iPads to all students at no cost, ensuring universal access without requiring personal devices.• Completed a pilot; full deployment was deferred due to institutional data-protection requirements for student personal records. |
| 2023 | Green City Planner — High School Research Program
visionOS |
| | <ul style="list-style-type: none">• Built a visionOS application for interactive 3D urban design, aimed at streamlining environmental impact assessments.• Collaborated with a peer (responsible for overall UI); led all technical aspects including asset preparation, scene layout, and environmental scoring. |
| 2022 | Optimal Transit Route Distribution via Machine Learning
R · Logistic Regression |
| | <ul style="list-style-type: none">• Explored correlations between municipal indicators (population, income, bus stops) and tram/subway route placement in Daejeon; built a logistic regression model to predict optimal station distribution.• Led all technical aspects: data collection, preprocessing, visualization, and model training. |

RELEVANT COURSEWORK

Statistics (A⁺), Statistics Lab. (A⁺), Discrete Mathematics, Engineering Mathematics, Computing Core: Data-Centered AI, Computer Programming, Logic Design

HONORS & AWARDS

Mar. 2026	Silla Foundation Scholarship — Full-Tuition for 3 Years Silla Cultural Scholarship Foundation, Seoul, S.Korea Competitive merit-based external scholarship; full tuition for three years.
Feb. 2026	SNU Customized Scholarship — Tuition Exemption Seoul National University, Seoul, S.Korea Merit-based internal scholarship awarded to selected students.
Aug. 2025	Donggok Lee Yong-hee Scholarship — Full-Tuition Donggok Lee Yong-hee Foundation, Seoul, S.Korea Competitive external scholarship covering full tuition.

SKILLS

Programming	Python, C, C++, Java, Swift, R
Tools	Git, Linux; PyTorch (learning)
Languages	Korean (Native), English (Fluent — TEPS 444)

TEACHING

Mar. – Jun. 2026	Undergraduate Mentor Freshman Seminar: “A Journey to Safe Research”, Seoul National University • Supervised class activities and provided individual academic guidance for first-year students. • Facilitated discussions on laboratory safety protocols and collaborative research practices.
------------------	--

EXTRACURRICULAR

Jul. – Aug. 2025	Student Mentor SAM (SNU Active Mentoring), College of Education Mentored local middle school students in Mathematics and Science; developed individualized study plans and facilitated goal-setting sessions. Awarded Outstanding Mentor of the Semester .
