Education

Seoul National University Mar. 2025 – Expected Feb. 2029
B.S. in Computer Science & Engineering; College of Liberal Studies Seoul, South Korea

Experience

AI Intern — IntelliSys, Seoul Sep. 2026 – Present
Developing **SR&D Chat**, a RAG assistant for SNU researchers and staff working with Korean R&D regulations.

- **Document processing:** Extracted and structured regulations and attachments, preserving tables and source references for retrieval and answer verification.
- **Retrieval:** Built retrieval and cited-answer workflows accounting for regulation versions, effective dates, and references between articles and appendices.
- **Query routing:** Routed regulatory questions, service inquiries, and out-of-scope requests to separate processing paths, bypassing unnecessary retrieval; resolved follow-up questions while preserving user corrections and separating new topics from prior context.
- **Evaluation:** Created evaluation sets with reference answers and rubrics for retrieval relevance, answer completeness, citation correctness, and multi-turn behavior.

Projects

Simply5x5 — iOS Workout Tracker Sep. 2025 – Present
SwiftUI, Firebase AI Logic (Gemini), HealthKit

- Built and released an iOS strength-training app on the App Store, implementing automatic progression, deloads, Gemini feedback, and HealthKit workout logging.
- Recorded **1.42K downloads** as of Aug. 2026 and an average of **67 daily active users** over the preceding 30 days.
- Selected for SNU's Spring 2026 Computer Programming Extra Project showcase.

Tram Route Modeling — High-School Project 2022
Modeled proposed tram-route coverage in Daejeon using logistic regression in R; collected and cleaned demographic and transit data and visualized relationships in Python.

Technical Skills

Languages: Python, Swift, C, C++, Java, R
Tools & libraries: Git, Linux, NumPy, OpenAI API, PyMuPDF
Languages spoken: Korean (native); English (TEPS 444)

Teaching

Teaching Assistant — Basic Computing: First Adventures in Computing, SNU Sep. 2026 – Present
Tutor students one-on-one in programming and debugging; give feedback on project proposals and presentations.

Teaching Assistant — Freshman Seminar, SNU Mar. – Jun. 2026
Guided first-year students through discussions and collaborative assignments on research safety.

Selected Coursework

Completed: Computer Programming (A+), Computing Core: Data-Centered AI (A+), Statistics (A+), Logic Design (A+), Discrete Mathematics.
In progress, Fall 2026: Data Structures, Computer Architecture, Deep Learning, Engineering Mathematics 2 (Probability and Computing).

Honors & Awards

Shilla Cultural Scholarship Foundation — Three-year scholarship, 2026.
SNU Tuition Scholarship (2026); **Donggok Lee Yong-hee Scholarship** (2025).
Gwanak-gu Mayor's Commendation — Outstanding SAM (SNU Active Mentoring) mentor, 2025.
